ANIMAL HUSBANDRY, DAIRY DEVELOPMENT & FISHERIES (AH.III)  
DEPARTMENT

G.O.Rt.NO. 321

Dated:-26 .07. 2012

Read the following:-

From the Director of Animal husbandry Letter  
Roc.No.14711/KI/K2/2011 dated 29.02.2012

ORDER:-

In the letter first read above, the Director of Animal Husbandry has reported that the main objective of the Veterinary Biological and Research Institute is to protect the Livestock and Poultry against various infectious and contagious diseases and to take necessary measures for control and eradication of disease in the interest of the small and marginal farmers. The Veterinary Biological and Research Institute, Hyderabad is also functioning with a commitment to diagnose the disease in time and also prevent disease occurrence by making all the biological products available free of cost to vaccinate the livestock and poultry against most life threatening bacterial and viral diseases. The Veterinary Biological and Research Institute was established in the year 1944 with two wings viz. Disease Investigation and Vaccine Production. Each Division is functioning under the control of separate Joint Directors. The Disease Investigation Division of Veterinary Biological and Research Institute have various section like Bacteriology and Mycology section, Disease Monitoring and Surveillance section, Foot and Mouth Disease Laboratory, Virology Laboratory, Sero-epidemiology Laboratory, Toxicology and Feed Analytical Laboratory, Japanese Encephalitis Laboratory, Pathology Laboratory and Parasitology Laboratory.

2        The Director of Animal Husbandry has further reported that the multifarious activities being carried out by above sections of the Disease Investigation Wing of Veterinary Biological and Research Institute and also various Disease Investigation works done on free of cost for the welfare of the farmers in the State. The Disease Investigation Wing, Veterinary Biological and Research Institute has also to attend the demands of the Private Agencies like M/s Alkabeer Exports Pvt. Ltd and M/s Frigerio conserva Allana Ltd. The samples of export oriented livestock products such as meat, eggs, horn tips, hooves and hides etc., received from M/s Alkabeer Exports Pvt. Ltd and M/s Frigerio conserva Allana Ltd are subjected to bacteriological examination for issue of Health Certificates and also to receive feed samples from private livestock feed manufacturers for issue of Feed Analytical reports duly collecting a nominal fee from the private agencies with the available staff and resources without any additional burden on part of the Government. During the last four years, some of the revenue generated at DI Wing, VBRI towards issue of health certificates to facilitate export of livestock products and issue of feed analytical reports by testing the feed samples and generated revenue is being remitted to the Government Treasury in the relevant Head of Account.

In the mean time, the Director of Animal Husbandry has further reported that following constraints are being faced by the Joint Director (AH) of DI Wing of VBRI in attending to the routine disease works of the Institute:-

- a) The Budget is allotted on Quarterly basis and is operated through Pay and Accounts Office. The clearance of bills takes a long time due to administrative reasons. Some time, the budget is not relased for all quarters making it difficult to meet the unforeseen expenditure that is incurred round the year for maintenance of the essential equipment and purchase of various regents/disease diagnostic kits.
- b) The financial powers for the this Head of Institute for clearing the bills is very meager and it takes a long time to obtain necessary permission from the higher authorities or the Government
- c) Conduct of disease diagnosis and /or analysis is a continues process and can not be postponed or interrupted in the middle for want of equipment or diagnostic kits or regents. Immediate measures should be taken to maintain the machinery / equipment to keep them in operation.

3           The Director of Animal Husbandry has therefore requested, the Government to constitute a Management Committee and also permit to keep the revenue generated at Disease Investigation Wing, Veterinary Biological and Research Institute as the Revolving Fund up to an amount of Rs.5,00,000/- to meet the unforeseen expenditure and overcome the said problems /constraints for smooth functioning of the Disease Investigation Wing by bridging administrative delays in release of regular budget.

4           After careful examination of the proposal, Government hereby accord permission to the Director of Animal Husbandry to utilize the revenue generated at Disease Investigation Wing, Veterinary Biological and Research Institute, Hyderabad as revolving fund up to an amount of Rs.5,00,000/- ( Rs. Five Lakhs) subject to funds can be restored as and when regular budget is released. Government has also approve the following composition for constitution of a Management Committee for Disease Investigation Wing at VBRI, Hyderabad for rendering better service to the livestock farmers in the State.
